Mediation Theory and Practice in Hong Kong

Author: Sarah E. Hilmer
Published: 2010
ISBN: 9789888054459
Student Price: $690
Format: Softcover Book

The objective of Mediation Theory and Practice in Hong Kong is firstly, to provide sufficient mediation theory; and secondly, to use the theory in context of local Hong Kong mediation practice.

The foundation of this book is the theory of mediation and the different stages of a mediation process; and will discuss each stage’s importance and function. While the theory mainly reflects the parties’ and mediator’s perspectives, the practical part of the book mainly refers to the lawyers’ involvement in a mediation process. References will be made to Practice Directions, relevant Civil Procedure Rules, relevant case law and necessary agreements relevant to a mediation process.

“The discussion of theory has general validity in all jurisdictions where mediation is taught and practiced. And the bridging of theory across to the structure of practice in Hong Kong serves both to elucidate the theory and to present the requirements of practice in a form which will be of great value to academics, practitioners and beyond.”

Advocacy and the Litigation Process in Hong Kong – Third Edition

Authors: Michael Wilkinson, Vandana Rajwani, Raymond Pierce
Published: 2007
ISBN: 9789628972241
Student Price: $690
Format: Softcover Book

Advocacy and the Litigation Process in Hong Kong provides an introduction to the basic rules, conventions and techniques that every advocate must know and apply when practising in the courts of Hong Kong. It takes the reader through the complex litigation process from first interview with the client, through the preparation of the case for trial, interlocutory applications, the trial itself and finally appeals.

It also highlights the skills required to be successful and emphasises the ethical duties of advocates.

The third edition incorporates many developments in the rules and techniques of practice and introduces many cases and practice directions relevant to practice.

This book, which is essential reading for all law students, is also likely to be of interest to practising advocates and all involved in the trial process.

Business Law in Hong Kong – Third Edition

Authors: Krishnan Arjunan, Abdul Majid bin Nabi Basksh
Published: 2018
ISBN: 9789888477616
Student Price: $750
Format: Softcover Book

As in the previous editions, this third edition offers a comprehensive account of topics that are essential equipment in the arsenal of every student in business studies. Based on the premise that the contract is fundamental to all business transactions, about half of this book is dedicated to the basics of the law of contract, with the remainder on selected Business Law topics. Presenting an in-depth exposition of the topics in prose that is clear, concise and easily readable, this is a refreshing change from other legal texts which adopt the ‘bare bones’ notational approach or detailed technical explanation of legal principles.

A salient feature of the text is that detailed case summaries and extracts from leading judgments in Hong Kong and other jurisdictions are set out in support of the legal principles involved. This approach not only assists the reader in appreciating the underlying legal processes, but also enables the usage of this book as a ‘stand-alone’ text. The law on the various topics has been updated and with the advent of the Companies Ordinance (Cap 622) in 2014, revamping the corporate regime, the chapter on Company Law has been substantially re-written.

A Guide to Civil Procedure in Hong Kong – Sixth Edition

Authors: Michael Wilkinson, Eric Cheung, Gary Meggitt
Published: 2017
ISBN: 9789888389964
Student Price: $750
Format: Softcover Book

It is quite startling just how many judgments involving points of civil procedure are coming from the courts and just to keep abreast of developments is almost a full-time occupation for practitioners and judges alike. And for students to master the rules is a considerable challenge. We hope that this text will go some way to alleviating their respective tasks.

This text provides students with a clear and up to date exposition of the rules and judicial decisions governing the conduct of civil litigation in Hong Kong.

The Civil Justice Reform has been in effect since 2009 and there are many judicial decisions reflecting judicial approaches and attitudes to the implementation of the rules. The authors have chronicled these developments by reference to the considerable amount of case law on the rules and practice directions.

Commercial Law in Hong Kong – Second Edition

Author: Judith Sihombing
Published: 2017
ISBN: 9789888389735
Student Price: $750
Format: Softcover Book

This book explains various forms of transactions, including those from areas of general business dealings to areas of consumer finance. The book is also very practical. It enables readers to identify new forms of assets, to draft any form of security or quasi-security, and to apply common law and equitable principles to different types of transactions, particularly in relation to breach of contracts, and to remedies for breach.

The topic of Commercial Law remains prominent in the legal system and practice in Hong Kong. Developments since 2013 have kept pace not only with the manner in which commercial law itself has been handled in Hong Kong, but also with new interpretations of the law from the UK Supreme Court, and from the High Court of Australia.

Commercial Law in Hong Kong addresses the effect of local legislation such as the Unconscionable Contracts Ordinance and the Money Lenders Ordinance in this field of law. It also contains comprehensive commentary on recent judicial decisions to areas such as the interpretation of commercial documents, the question of liquidated damages versus penalties, and the presence of illegality and what that may mean.

Commercial law is not a static area of the law; instead it is a part of the law reflective on developments in society, the needs of the community and the skill of the tradesmen of commercial law.

Construction of Commercial Contracts in Hong Kong

Author: Lee Mason
Published: 2017
ISBN: 9789888389728
Student Price: $750
Format: Softcover Book

Unlike the substantive law of contract, construction of contractual terms is essentially intuitive in nature, with no rules but, rather, with fundamental guiding principles which have evolved from a large body of case law and, indeed, continue to evolve. It is, therefore, essential that any commercial lawyer has a solid grasp of such principles so as to enable them to anticipate how contractual terms are likely to be interpreted by the court for the purposes of giving advice and drafting contractual documents. Other than examining the guiding principles of contractual construction, the book will also consider related concepts, such as implied terms, rectification and estoppel by convention, which are also highly relevant to the overall construction issue.

This book is designed to be an easily accessible guide to provide a concise and straightforward introduction to the principles of construction of commercial contracts in Hong Kong, considering both local and selected comparative approaches (particularly those of England and Australia) as and where they may be influential in Hong Kong.

Company Law and Shareholders’ Rights

Authors: Rita Cheung, Vandana Rajwani, Raymond Pierce
Published: 2010
ISBN: 9789888054503
Student Price: $690
Format: Softcover Book

Company Law and Shareholders’ Rights is a specialist work on shareholders’ rights from a Hong Kong legal perspective. It covers the common law actions by exceptions to the rule in Foss v Harbottle, the statutory derivative action, and the twin statutory minority remedies of unfair prejudice and just and equitable winding-up. This text provides clarification of shareholders’ personal rights to enforce the section 23 contract and the creation of a new statutory derivative action as contained in the old Companies Ordinance (Cap 32) Part IVAA, as well as the clarification of shareholders’ personal rights to enforce section 23 contract.

...Dr Cheung has admirably risen to the challenge in producing a lucid and comprehensive study of the law... The work will become an indispensable tool for the litigator and scholar wishing to navigate around the pitfalls which this particular legal landscape presents in abundance.

- John Lowry, Professor of Commercial Law, Faculty of Laws, University College London

Law of Contract in Hong Kong: Cases and Commentary – Sixth Edition

Author: Stephen Hall
Published: 2019
ISBN: 9789888600632
Student Price: $750
Format: Softcover Book

Among the many important changes which Hong Kong has experienced over the last couple of decades is the gradual, and continuing, emergence of a distinctively local common law. The common law of contract is no exception, and it is now increasingly possible to speak of a Hong Kong law of contract that is not a mere facsimile of the English common law. The goal of this edition, the sixth of this important work, is to further contribute to the growing body of work dealing with Hong Kong’s law of contract.

The cases selected for inclusion in the book have been carefully curated, and the commentary thereupon expounds each legal principle with clarity and exactitude. The text looks toward English case law, where it lays foundational principles, but the Hong Kong cases included are present either because they develop upon contract law in a significant way or in a distinctive Hong Kong setting. In similar fashion, a selection of cases from other common law jurisdictions are also included. It is not, however, simply a casebook. It also includes extensive commentary and analysis exploring the similarities and emerging differences among the jurisdictions, with particular reference to the ongoing development of the law in Hong Kong.

It will prove invaluable for any student of the law wishing to understand the Law of Contract in Hong Kong.

The Law of Tort in Hong Kong – Fourth Edition

Author: Charu Sharma
Published: 2020
ISBN: 9789888600601
Student Price: $750
Format: Softcover Book

The Law of Tort in Hong Kong, first edition, was one of the first local textbooks on tort law. Now in its fourth edition, it still offers a unique local perspective on tort law, separate to English common law, as referring to laws of England does not always offer answers to problems unique to Hong Kong. This book aims to explain the legal principles of the law of tort through the lens of and with particular reference to Hong Kong cases and legislation. Leading cases on the law of tort are analysed and relevant legislation examined. The author also discusses Hong Kong socioeconomic developments and suggest options for law reform.

Distinctive of other works from England or elsewhere in the Commonwealth, this book focuses on typical Hong Kong problems such as nuisance, trespass, occupiers’ and owners’ liability and liability of bank and financial advisers.

This core text is of value and interest to lawyers, law lecturers and students.

Civil Procedure in Hong Kong – Sixth Edition
Authors: Michael Wilkinson, Eric Cheung, Gary Meggitt
Published: 2017
ISBN: 9789888389971
Student Price: $2,500
Format: Hardcover Book

It is now 8 years since the Civil Justice Reform was implemented. Clear improvements have been seen in some aspects of the practice of the law; in others perhaps less so. It is really time for a stocktaking as to whether further amendments are needed and, if so, what. Some aspects of procedure, such as sanctioned offers and sanctioned payments, may be thought to have become overly complex whilst serving a very useful purpose.

Civil Procedure in Hong Kong provides practitioners with a clear and up to date exposition of the rules and judicial decisions governing the conduct of civil litigation in Hong Kong.

The Civil Justice Reform has now been effective for more than 8 years and there are many judicial decisions reflecting judicial approaches and attitudes to the implementation of the new rules. The authors have chronicled these developments by reference to the considerable amount of case law on the new rules and practice directions.
